

Prayer Challenge

Christian workers among Muslim people in Russia know that their work is useless if God isn't blessing. They depend on prayer to make sure they are connecting with Him and praying according to His will. They use the "five-by-five-by-five" method to help them.

"We expect everybody to constantly be praying for **five** people who are not yet believers; **five** believers they are mentoring (teaching and being a special friend); and **five** *unengaged, unreached people groups in Central Asia*," said Winfield Scott*, who works among Muslims in Russia.

An *unreached people group* is a group of people in which less than 2 percent of the population is evangelical Christian. An *unengaged, unreached people group* is an unreached people group for which there is no known Christian witness.

Will you join the team and pray? Whom will you pray for?

*Name changed.
