

# Hearts & Rocks

Form two teams and allow girls to take turns answering questions about the story for their teams. A girl may not ask for help from a teammate unless her team holds a "Helping Hand" card. Questions are found in the Week 1 Story activity, "Tell and Toss."

After a player has answered a question, she will draw a card from the bag to see how many points she has earned for her team. After a card has been drawn, return it to the bag (unless it is a "Helping Hand" card). Continue until all questions have been asked and answered.

## POINTS

**Number Card:** Team earns that number of points.

**Heart Card:** Team's points double.

**Rock Card:** Team loses half its points. If a team has only one point, it will lose that point. If a team has an odd number of points, it will lose the larger portion of points. For example, if a team has five points, it will lose three points.

**Helping Hand Card:** Team earns five points. Team will hold this card until one of its players cannot answer a question. A player can produce this card and ask a teammate to help her answer the question. Once this card has been used, return it to the bag.
